

ISASP Online Testing Readiness Technology Training

In preparation for the Spring 2019 online testing for the Iowa Statewide Assessment of Student Progress (ISASP), Pearson will provide live training sessions to support technology staff.

The goal of the training is for attendees to understand how to determine a school's readiness to test their students online. Attendees can bring their devices to practice installing and logging into TestNav, access online resources, and practice completing administrative tasks in the PearsonAccess Next Training Center. Topics include: technology resources, components of online testing, TestNav, ProctorCache, PearsonAccess Next, infrastructure setup, infrastructure trial (mini & full – what is expected/required), big picture and next steps, and support.

The table below contains the AEA locations, dates, and sessions available. All dates will offer the same two 4-hour training sessions, one morning and one afternoon. A webinar option is also available for those unable to attend a live session.

[Select this link to register for a live technology training.](#) You will receive a confirmation email after you complete your registration.

AEA location	City	Date	Session Times
Northwest AEA	Sioux City	Monday, October 1, 2018	AM Session: 8:00am-Noon PM Session: 1:00pm-5:00pm
