

**Math Practice Test Constructed Response Rubric Grade 3**

The four pyramids below are part of a pattern. Pyramid 5 will continue this pattern.

Write the number of blocks in the bottom row of each pyramid.

Pyramid 1:

Pyramid 2:

Pyramid 3:

Pyramid 4:

How many blocks will be in the bottom row of Pyramid 5 ?

Explain the pattern or rule you used to find the number of blocks in the bottom row of Pyramid 5.

Write your answer in the space provided.

<b>Rubric</b>	
Score	Description
<b>2</b>	<p>ONE point for:</p> <p>Correctly identified number of blocks in Pyramids 1-4  Pyramid 1: 1  Pyramid 2: 3  Pyramid 3: 5  Pyramid 4: 7</p> <p>AND/OR</p> <p>Correctly identified number of blocks in Pyramid 5  Pyramid 5: 9</p> <p>ONE point for:</p> <p>Explanation: added 2</p>
<b>1</b>	<p>Correctly identified number of blocks in Pyramids 1-4  Pyramid 1: 1  Pyramid 2: 3  Pyramid 3: 5  Pyramid 4: 7</p> <p>OR</p> <p>Correctly identified number of blocks in Pyramid 5  Pyramid 5: 9</p> <p>OR</p> <p>Explanation: added 2</p>
<b>0</b>	The response is incorrect or irrelevant.
